

# ARTIS REAL ESTATE INVESTMENT TRUST

Company Tear sheet Q3 2016

## Corporate Profile

Artis REIT ("Artis") (TSX: AX.UN) is an unincorporated closed-end real estate investment trust primarily focused on creating value for unitholders through the investment in and ownership of quality commercial properties in select markets.

Artis' portfolio is comprised of office, retail, and industrial properties in Central and Western Canada, and select markets in the United States.

## Objective

Artis' primary objective is to provide a stable, reliable and tax-efficient monthly cash distribution as well as long-term appreciation in the value of Artis' units through the accumulation and effective management of a quality portfolio of commercial real estate.

## Strategy

Artis' management employs several key strategies to meet its primary objective:

### Strategic Asset Ownership.

Artis' portfolio of office, retail and industrial real estate is strategically and diversely located in select primary and secondary markets in Canada and the United States (U.S.). Artis' management conducts ongoing analysis of the performance of its assets and the relevant economic fundamentals of its target markets, identifying opportunities to make accretive acquisitions, develop new generation real estate and dispose of assets that are not aligned with its long-term strategy.

### Prudent Financial Management.

Artis has a long-term conservative approach to financial management, characterized by diligent management of its balance sheet, and prudent management of financial metrics, such as debt ratios, interest coverage ratios, payout ratios, and per unit metrics. Artis minimizes its risk related to interest rates by utilizing various sources of capital, and staggering debt maturities. Ample access to cash is required to fulfill distribution obligations and for ongoing operations, which includes re-investing in the portfolio, making accretive acquisitions and funding development projects.

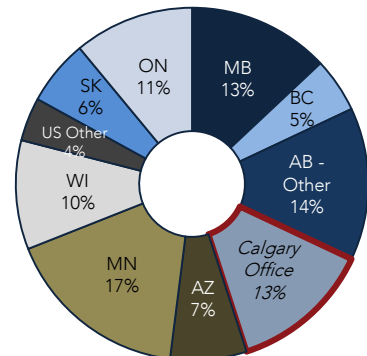

### Disciplined Growth.

Artis' management strives to extract maximum value from its portfolio through effective management of assets, including leasing initiatives that focus on maintaining strong occupancy levels and realizing the gain between in place rental rates and market rental rates. Artis' management creates value through strategic asset redevelopment and property intensification initiatives, and through new development projects. New developments provide Artis an opportunity to build and own new generation real estate, and are considered in circumstances where the return on a development project is higher than that of acquiring an existing property.

Property NOI by Geography  
(Q3-16)

Property NOI by Asset Class  
(Q3-16)

Pro forma Property NOI for three months ended September 30, 2016, inclusive of Artis' proportionate share of joint venture arrangements, exclusive of lease termination income, and adjusted for dispositions announced or completed at December 15, 2016.
